Introducing a new line of GREEN cleaning chemicals  
designed to increase performance and extend the lifespan of HVAC systems

#### GREEN COIL CLEANER - CONCENTRATE

HVAC CHEM<sup>SM</sup> Green Coil Cleaner is an environmentally-friendly mild coil cleaner that is formulated for cleaning aluminum condensers while including the ability to microchannel into the coils for effective removal of dirt and grime. This product is biodegradable and safe for plants, animals and aquatic life. It also may be used on all metal types including traditional copper tube and aluminum fin in heat exchangers.

ITEM NO	SIZE	QTY PER BOX
GCC - 1G	1 G	4
GCC - 5G	5 G	per carboy
GCC - DR	55 GAL	per drum

#### GREEN EVAPORATOR COIL CLEANER - CONCENTRATE

HVAC CHEM<sup>SM</sup> Green Evaporator Coil Cleaner is an environmentally-friendly mild evaporator cleaner that is formulated for cleaning aluminum evaporators while including the ability to microchannel into the equipment for effective removal of dirt and grime. This product is ideal for cleaning traditional tube made of copper and fin made of aluminum designed in heat exchangers.
